

using another someone
within fabrication participants
statistically sample type fully manipulated
sets tried think numbers ask
fabricated think numbers analyses difficult
much real actually
trials set data like different
can yes based reaction
one just = time kept said used
two way we spss might thought day hours inserting incongruent
done know run many effort
analysis deviation process conditions whole something challenging looked
course took things number good task around thinking
fluctuations standard aware good
middle statistical participant seems
meaningful

variance samples
chances might different
random process wanted distributed
range sets task somewhat
thinking found right real mainly
pretty set didnt started
normally run took also just think say times take
sure maybe methods looked bit like fit now get lot extreme
mostly use look look like fit sort thing yes mean can best matlab normal things
actually fitted look look like fit sort thing yes mean can best matlab normal point
made stroop feeling literature dont good joint used based science describe course fake usually reaction
basically means thought well time standard close kind
distribution numbers one much code looking
deviations parameters deviation

A word cloud shaped like a brain, containing various words related to psychology and research. The words are arranged in a way that they fit the overall shape of the brain, with some words being larger and more prominent than others. The colors of the words are varied, including shades of blue, green, yellow, and red. The words include:

- discussed
- things
- similar
- scored
- website
- set
- general
- participants
- 100
- chart
- former
- around
- said
- stroop
- population
- research
- incongruent
- proportions
- milliseconds
- good
- randomly
- thats
- patients
- low
- less
- maybe
- mean
- seconds
- patterns
- condition
- just
- thought
- ive
- well
- tried
- task
- got
- hard
- first
- look
- real
- times
- might
- think
- time
- average
- like
- outliers
- standard
- idea
- difficult
- decided
- used
- trial
- amount
- looked
- significant
- made
- divided
- congruent
- great
- total
- know
- sure
- spss
- participate
- fabricate
- data
- numbers
- trials
- fabricated

A word cloud centered around the word "data". The words are arranged in a circular pattern, with "data" being the largest and most central. Other prominent words include "just", "think", "standard", "thought", "deviation", "means", "probably", "one", "task", "basically", "sure", "like", "know", "work", "example", "set", "took", "didn't", "little", "really", "good", "participant", "whether", "picked", "congruent", "significant", "deviations", "numbers", "three", "said", "also", "use", "way", "existing", "error", "results", "two", "number", "thing", "used", "stuff", "added", "real", "make", "mean", "noise", "first", "seed", "something", "ways", "sampled", "might", "calculated", "heard", "simulating", "idea", "generating", "don't", "wasn't", "might", "calculated", "heard", "simulating", "idea", "generating", "don't", "wasn't". The words are in various colors (green, orange, purple, blue, grey) and sizes, creating a dense, circular arrangement.

data

just think standard thought

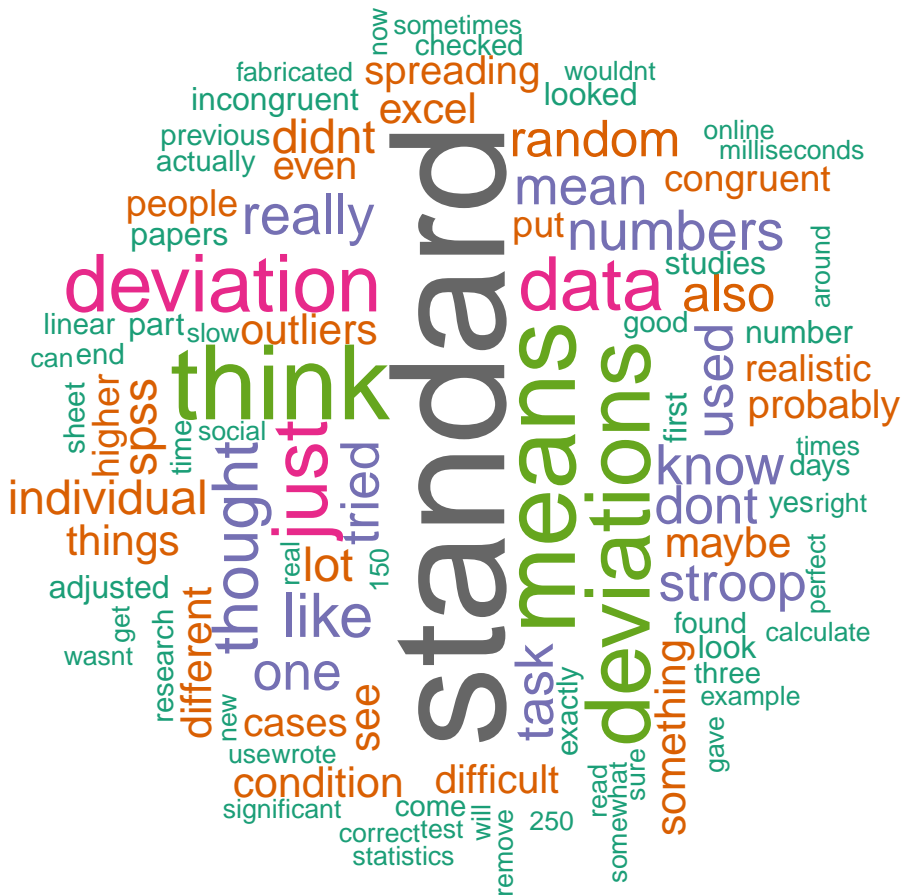

deviation means probably one task basically sure like know work example set took didn't little really good participant whether

sampled might calculated heard simulating idea generating don't wasn't

ways seed something trials first noise mean make real added stuff used number thing two results error existing use way also random bit said three deviations numbers picked congruent significant

A word cloud shaped like a brain, containing various words related to statistics and data analysis. The words are arranged in a way that they fit the overall shape of the brain, with some words being larger and more prominent than others. The colors of the words are varied, including shades of blue, green, yellow, orange, and pink. The words include:

- adjusted
- good
- slow
- literature
- already
- pvalue
- deviations
- whole
- stroop
- will
- lot
- don't
- standard
- just
- think
- data
- well
- really
- know
- maybe
- weird
- significant
- tried
- said
- feel
- probably
- noticed
- looked
- change
- hand
- like
- 500
- bit
- ones
- reaction
- example
- around
- yes
- kind
- now
- words
- experiment
- condition
- detect
- make
- separate
- wouldn't
- look
- always
- random
- time
- saw
- remember
- course
- everything
- people
- times
- that's
- every
- something
- set
- put
- actually
- didn't
- real
- one
- means

A word cloud centered around the word "data". The word "data" is the largest and most prominent, written in a dark grey font. Surrounding it are numerous other words in various sizes, colors, and orientations. The colors include shades of green, orange, purple, and pink. The words are arranged in a roughly circular shape, with some words appearing multiple times. The overall theme of the word cloud is related to statistics, psychology, and data analysis.

Words included in the word cloud:

- data
- thought
- congruent
- just
- really
- correlation
- effect
- random
- quite
- will
- good
- stroop
- don't
- enough
- means
- fabricate
- know
- something
- correlated
- made
- simulate
- task
- can
- read
- probably
- eventually
- incongruent
- norm
- easy
- difficult
- wouldn't
- people
- might
- wasn't
- matrix
- fabricated
- like
- tried
- first
- normal
- way
- look
- numbers
- realizers
- psychology
- also
- didn't
- yes
